

http://waltz

## Overview

Name	waltz.dns.com	Lifecycle status	Production
Operating System?	linux	Location	London
Environment	PROD	End of Life date	<del>2024-12-31</del>

## Applications

Table of applications that this server has a relationship to. Usually this will be any applications that this server is allocated to.

## Physical Flows

Table of flows that this server is participant to.

## Notes

Deployment	Kubernetes
# Nodes	5
Capacity information	CPU, Mem, Disk

Entity Named Notes to provide structured additional information about this asset that doesn't always fit into common / generic fields

## Software

A list of software running on this server

http://waltz

## Overview

Name	waltz.dns.co
Operating System?	linux
Environment	PROD

Support for  
search of  
nodes  
(servers /  
databases)

## Applications

Table of applications that this  
server is allocated to.

## Physical Flows

Table of flows that this server is participant to.

## Notes

Deployment	Kubernetes
# Nodes	5
Capacity information	CPU, Mem, Disk

Entity Named Notes to provide
